Bloom's Taxonomy Grid	Topic: The Human Body					
	Knowing	Understanding	Applying	Analysing	Creating	Evaluating
<u>Verbal</u> I enjoy reading, writing and speaking	Create a list of 10 facts you have learnt about the human body.	Compare two organs of the body and state their job roles.	Complete a fact file about an organ of your choice.	Write an argument for which is most important and why.	Create a leaflet on healthy living.	Write a diary of what you eat and the exercise you do over a week. Evaluate how healthy you think you are.
<u>Mathematical</u> I enjoy working with numbers and sequences	Find out the number of bones a baby, child and adult have.	How long are the large and small intestines?	Calculate the cost of a healthy meal. What ingredients would you need? Where would you buy them from?	Analyse how the population of earth has changed in the past 50 years.	Create a timeline to show how a human body changes as it grows older.	Consider how human bionics will change in the next 50 years, due to developments in technology.
<u>Visual/Spatial</u> I enjoy painting and drawing	Design a blueprint for a bionic limb.	Create a comic strip for a first aid scenario.	Create an illustration of the human body.	Investigate an artist who focused on the human body. Create a personal profile for him/her	Construct a 3D model of the human body or one of the organs.	Prioritise the importance of different organs.
<u>Kinaesthetic</u> I enjoy doing hands on activities, sports and dance	Act out what you think would happen if person didn't have skeleton.	Can you create a dance to show a piece of food moving through the body?	Design a 2D or 3D first aid kit.	Investigate the best way to measure heart rate.	Create a dance to keep children fit and healthy. Explain why this is important.	Teach someone how the human heart works.
<u>Musical</u> I enjoy making and listening to music	Create a rap about the human body	Write a mnemonic human body.	Write a poem that rhymes about the human body.	Listen to your heart beat. Does it remind you of anything? Does it stay the same or change at different times?	Change the lyrics to a song you know and make it all about the body.	Write a review of The Day the Crayons Quit.
<u>Interpersonal</u> I enjoy working with others	With a friend, list the pros and cons of donating organs.	Make up your own top trumps cards for the organs of the body.	With a friend show how your body is different to theirs.	Do you think your body will stay the same? What do you think will change as you get older?	Design a meal for an athlete.	Debate with a family member if operations are safe.
<u>Intrapersonal</u> I enjoy working by myself	Create a diagram showing where the organs are in the body.	Write a newspaper article about the first human transplant.	Describe what you think what makes a good sports person.	Analyse the performance of an athlete in a recent sporting event. What do you think they could have done better?	Wrote a postcard to your family from inside the human body.	If you could shrink down and travel inside your body, would you? Why/why not?
