

## Activity 5. Writing about your own alien.

In our story Toys In Space, we meet an alien called the Hoctopize. We find out some different things about him during the story.

### 1. DESCRIPTION.

He wears a pair of pyjamas and has a head that looks like a stripy glove or a set of stripy socks.

### 2. WHERE IT LIVES

The Hoctopize lives in a space ship which orbits around our planet Earth.

### 3. WHAT DOES IT DO?

The Hoctopize is in search of his favourite toy Cuddles, which he lost somewhere in outer space. He thinks he might have left it on Earth.

Name – The Hoctopize.

### 4. HOW IT FEELS/ ITS EMOTIONS

The Hoctopize is very distressed as he does not have his favourite toy. He is lonely up in space with no-one to play with. He is rather ashamed to have taken so many toys from Earth's boys and girls.

### 5. WHAT IT ENJOYS DOING

In our story the Hoctopize finds out he likes parties and, in particular, playing party games. He is very good at musical statues as he can stand very still.

Activity 5. Writing about your own alien.

If the toys had not met the Hoctopize, which other alien can you make up. Give it a name and describe it. What does it look like? Why is it up in space? What is it searching for? What does it enjoy doing? Draw your own alien in the middle and then fill in the boxes around the outside.
