

Here is a thousand square.

Part of the square has been coloured.

What fraction of the square has been coloured?

$$\frac{\boxed{}}{1000}$$

Write the fraction as a decimal.

Use your representations to help you complete the statements.

$$0.512 = 0.5 + 0.01 + \boxed{}$$

$$1.352 = 1 + \boxed{} + \boxed{} + \boxed{}$$

$$2.003 = \underline{\hspace{2cm}}$$
