

## The Tadpole

When there is a lot of rain, it makes a pond in the garden. Frogs lay eggs in the mud.

After five weeks, you can find baby frogs in the pond. They are called tadpoles. After 4 weeks, the tadpoles become frogs.

1. What happens when there is a lot of rain?

-----

2. Where do frogs lay their eggs?

-----

3. How long does it take to see a baby frog?

-----

4. What is a baby frog called?

-----

5. What happens to the tadpole after 4 weeks?

-----
