

As you work through your lessons today, fill in the timetable below (copy out the table if you can't print this sheet.)

When you complete you final lesson, and have listened to today's story, answer the questions on the second sheet.

Use <u>this website</u> to set the times you are comparing. It will help you to count around the clock (in 5s!) to answer the questions. Try not to worry about being too exact with your timings; to the nearest 5 minutes is fine!
