

4/2/21

We will complete today's lesson in two parts. So don't pack away after the first worksheet!

Two
PARTS

Part 1

Comparing Angles

In Focus

MATHS

In which letters are there right angles?

Check using your
right-angle tester.

Let's Learn

1 Are there right angles in T ?

There are 2 right angles in T .

Which other letters
have several
right angles?

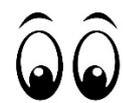

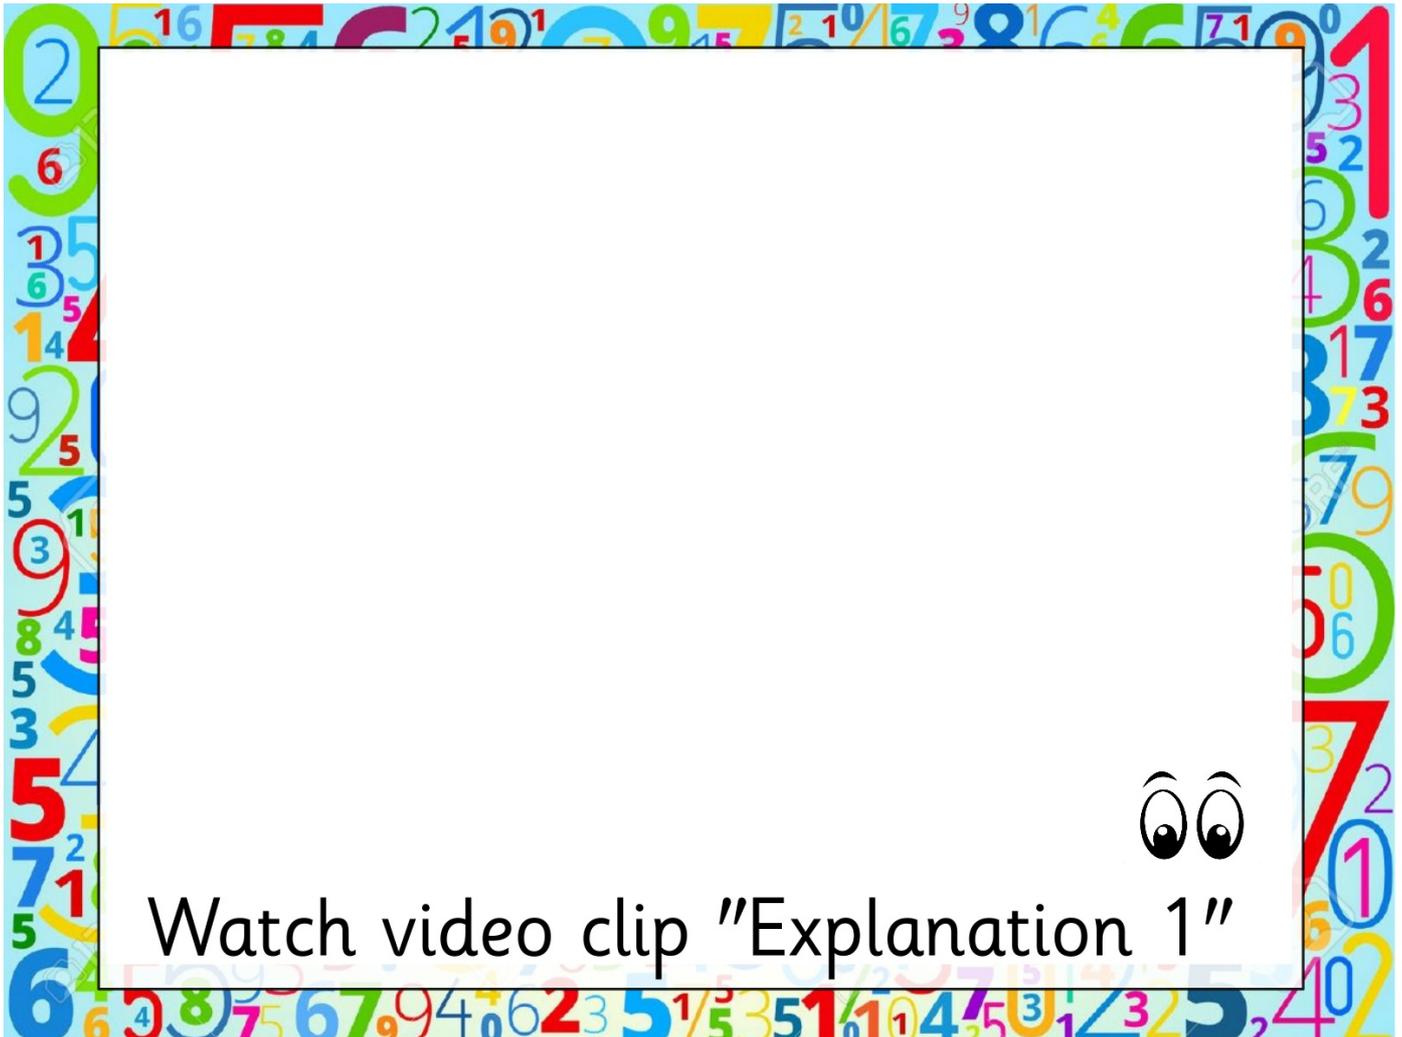

2 Are there right angles in H ?

There are 4 right angles in H .

Watch video clip "Explanation 1"

Watch video clip "Explanation 1"

3

Are there right angles in **M**?

3

Are there right angles in **M**?

Angles a, b and c are less than a right angle.

We call these acute angles.

An acute angle is smaller than a right angle.

4

Are there acute angles in **A** ?

4

Are there acute angles in A ?

These angles are smaller than a right angle.
These are acute angles.

5

Are there acute angles in **S**?

S

5

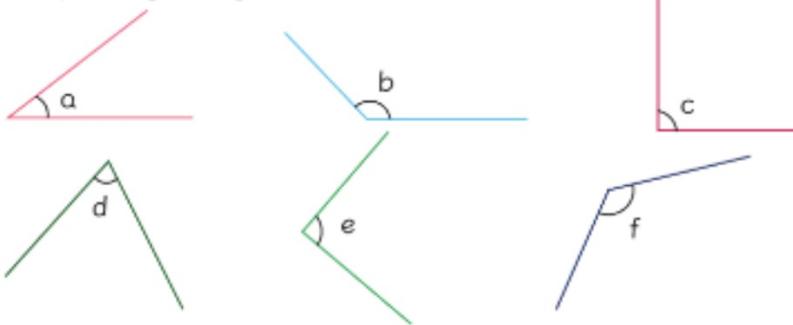

Are there acute angles in **S**?

No, angles are made when straight lines meet.

Guided Practice

Watch video clip
"Explanation 2" 🙄🙄

- 1 Draw an acute angle.
- 2 Which of these are right angles?
Use your right-angle tester or the corner of a ruler to find out.

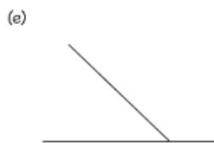

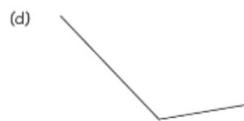

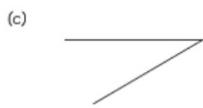

- 3 Which angles in the shapes are right angles and which are acute angles?

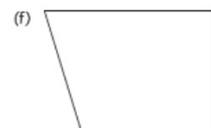

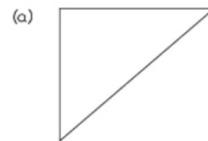

Comparing Angles

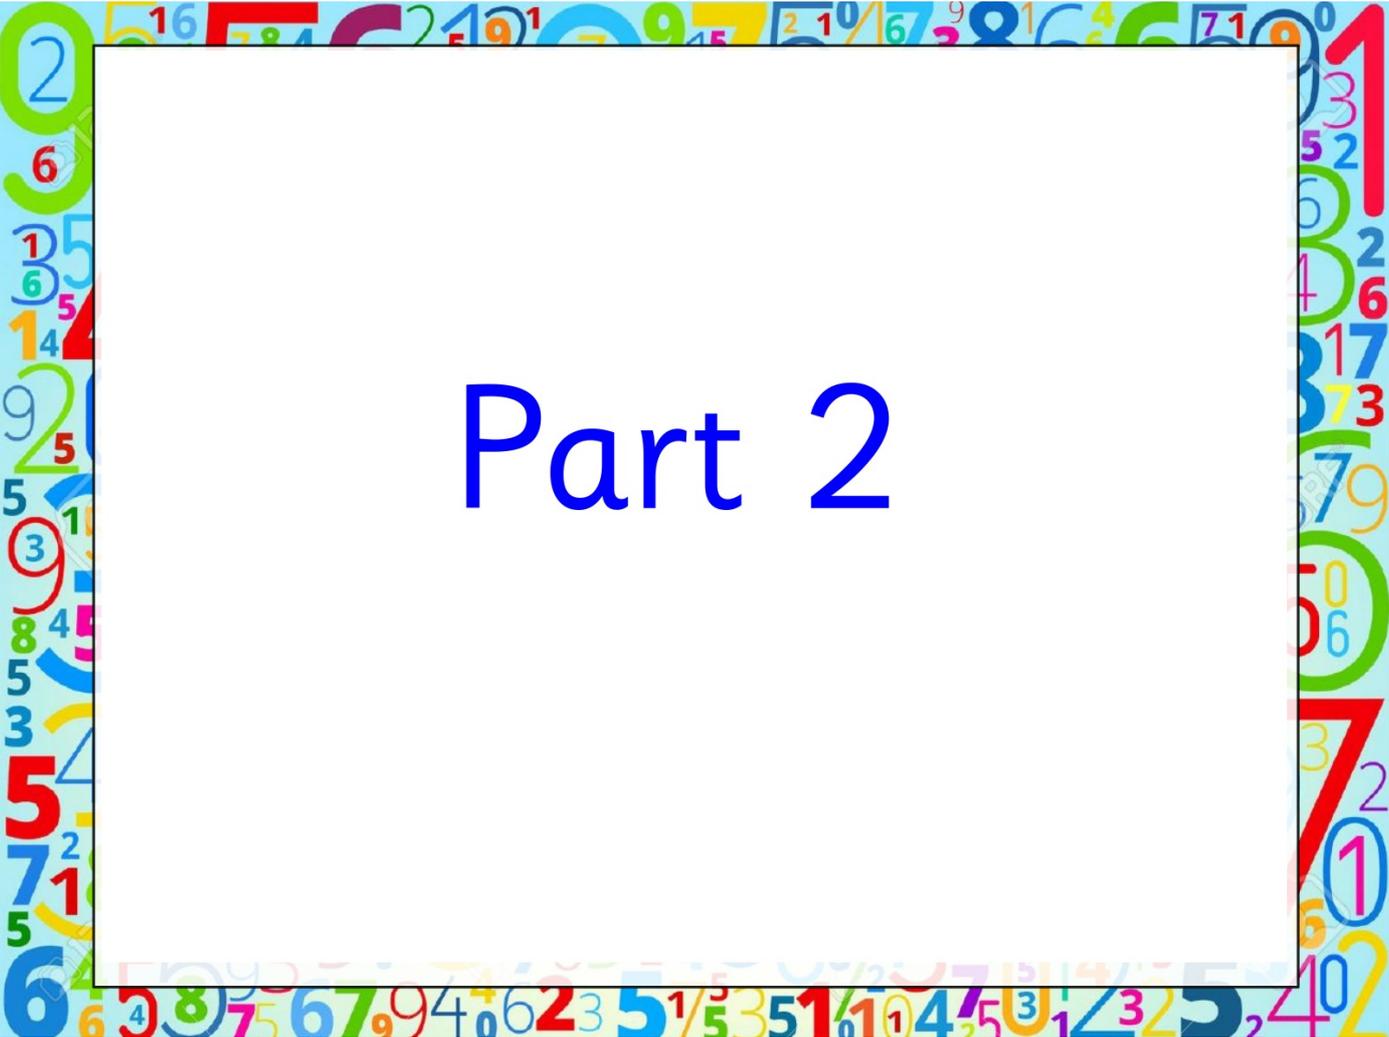

- 1 Each figure below is made up of two lines.
Circle the figures that make an acute angle.

Complete the worksheets

- 2 Mark all the acute angles in the shapes below and then write down how many you found.

Part 2

Comparing Angles

In Focus

ENGLAND

Are there angles that are larger than a right angle in the letters?

Let's Learn

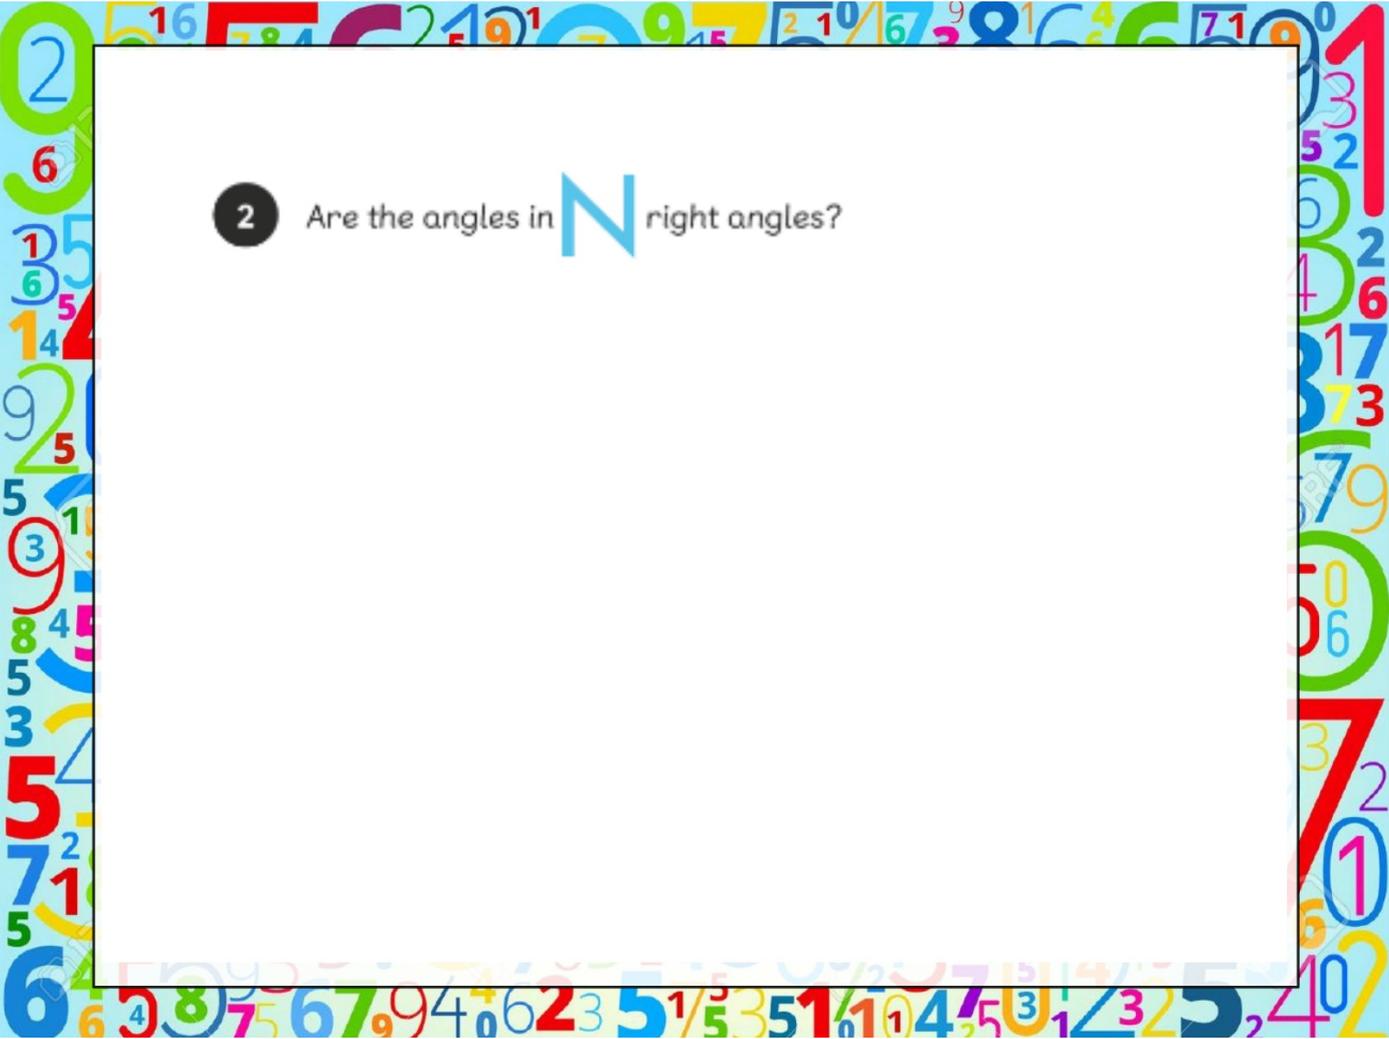

1 Are the angles in **E** right angles?

Let's Learn

1 Are the angles in **E** right angles?

These are right angles.

2 Are the angles in **N** right angles?

2 Are the angles in N right angles?

These are acute angles.

An acute angle is smaller than a right angle.

3 Are the angles in **A** right angles?

3 Are the angles in **A** right angles?

These are acute angles.

3 Are the angles in **A** right angles?

These are acute angles.

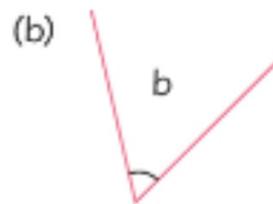

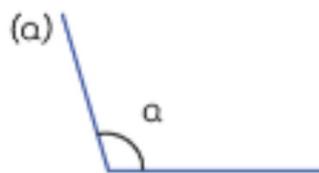

These are larger than a right angle.
We call them obtuse angles.

Obtuse angles are larger than 90° .

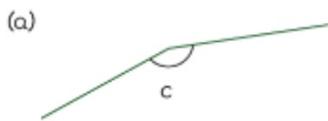

Guided Practice

- 1 Draw an obtuse angle.
- 2 Is each angle smaller than or larger than a right angle?

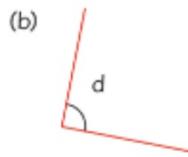

3

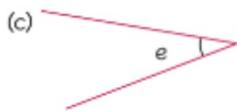

Name the acute angles, the obtuse angles and the right angles.

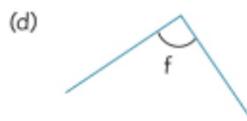

angle

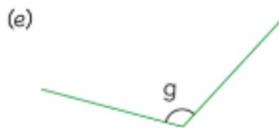

angle

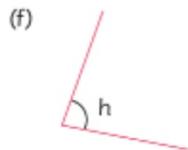

angle

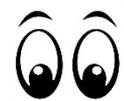

angle

angle

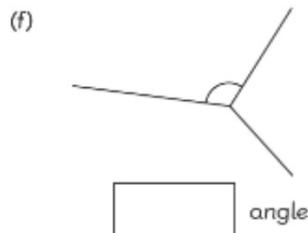

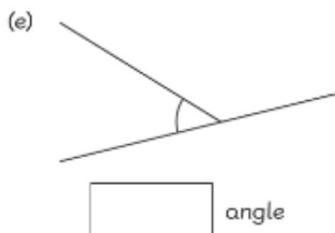

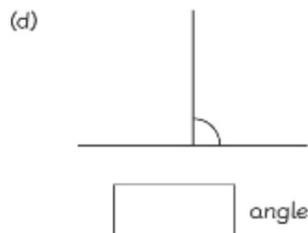

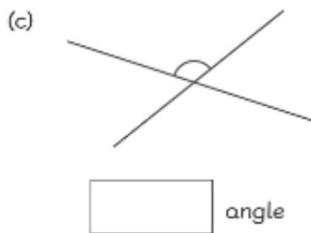

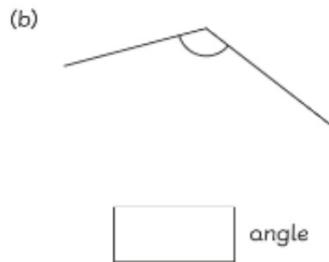

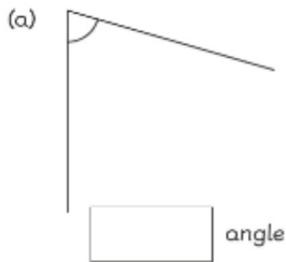

angle

Watch video clip "Explanation 3"

Comparing Angles

- 1 State whether the angle shown in each figure is an acute angle, a right angle or an obtuse angle.
