

Name: _____ Class: _____ Date: _____

Worksheet 13

Solving Word Problems

Solve.

1 At a bakery, cupcakes are sold in small boxes or large boxes.

- (a) Amira bought 6 large boxes and 4 small boxes of cupcakes for her family party.

How many cupcakes did she buy altogether?

Amira bought cupcakes altogether.

- (b) Back at home, Amira put all the cupcakes she bought onto trays. There were 10 cupcakes on each tray. How many trays did she use?

$$\square \div \square = \square$$

Amira used trays.

- 2 Hannah brought 3 boxes of chocolate cookies to school to share with her friends.

- (a) There were 12 cookies in each box.
Hannah shared all the cookies with her friends.
Each of them received 6 cookies.
How many friends did Hannah share her cookies with?

$$\square \times \square = \square$$

$$\square \div \square = \square$$

$$\square - \square = \square$$

Hannah shared her cookies with friends.

- (b) If Hannah shared the cookies with 8 friends instead, how many cookies would each person receive?

$$\square + \square = \square$$

$$\square \div \square = \square$$

Each person would receive cookies.
