

Measuring Area

- 1 Find the area of each rectangle using multiplication.

(a) $\boxed{2} \times \boxed{1} = \boxed{2}$

The area of figure A is $\boxed{2}$ square units.

(b) $\boxed{2} \times \boxed{2} = \boxed{4}$

The area of figure B is $\boxed{4}$ square units.

(c) $\boxed{2} \times \boxed{3} = \boxed{6}$

The area of figure C is $\boxed{6}$ square units.

(d) $\boxed{3} \times \boxed{3} = \boxed{9}$

The area of figure D is $\boxed{9}$ square units.

(e) $\boxed{5} \times \boxed{2} = \boxed{10}$

The area of figure E is $\boxed{10}$ square units.

(f) $\boxed{3} \times \boxed{6} = \boxed{18}$

The area of figure F is $\boxed{18}$ square units.

- 2** Figure X is a rectangle with an area of 24 square units. It has 4 rows. Draw Figure X in the 1-unit square grid below.
