

The artist is
not a special
kind of person;
rather each
person is a
special kind
of artist.

ANANDA COOMARASWAMY

artful
parent

You are going to use this fingerprint to create your own collage.

You will use:

- magazine clippings
- texts
- washi tape
- coloured paper
- tissue paper

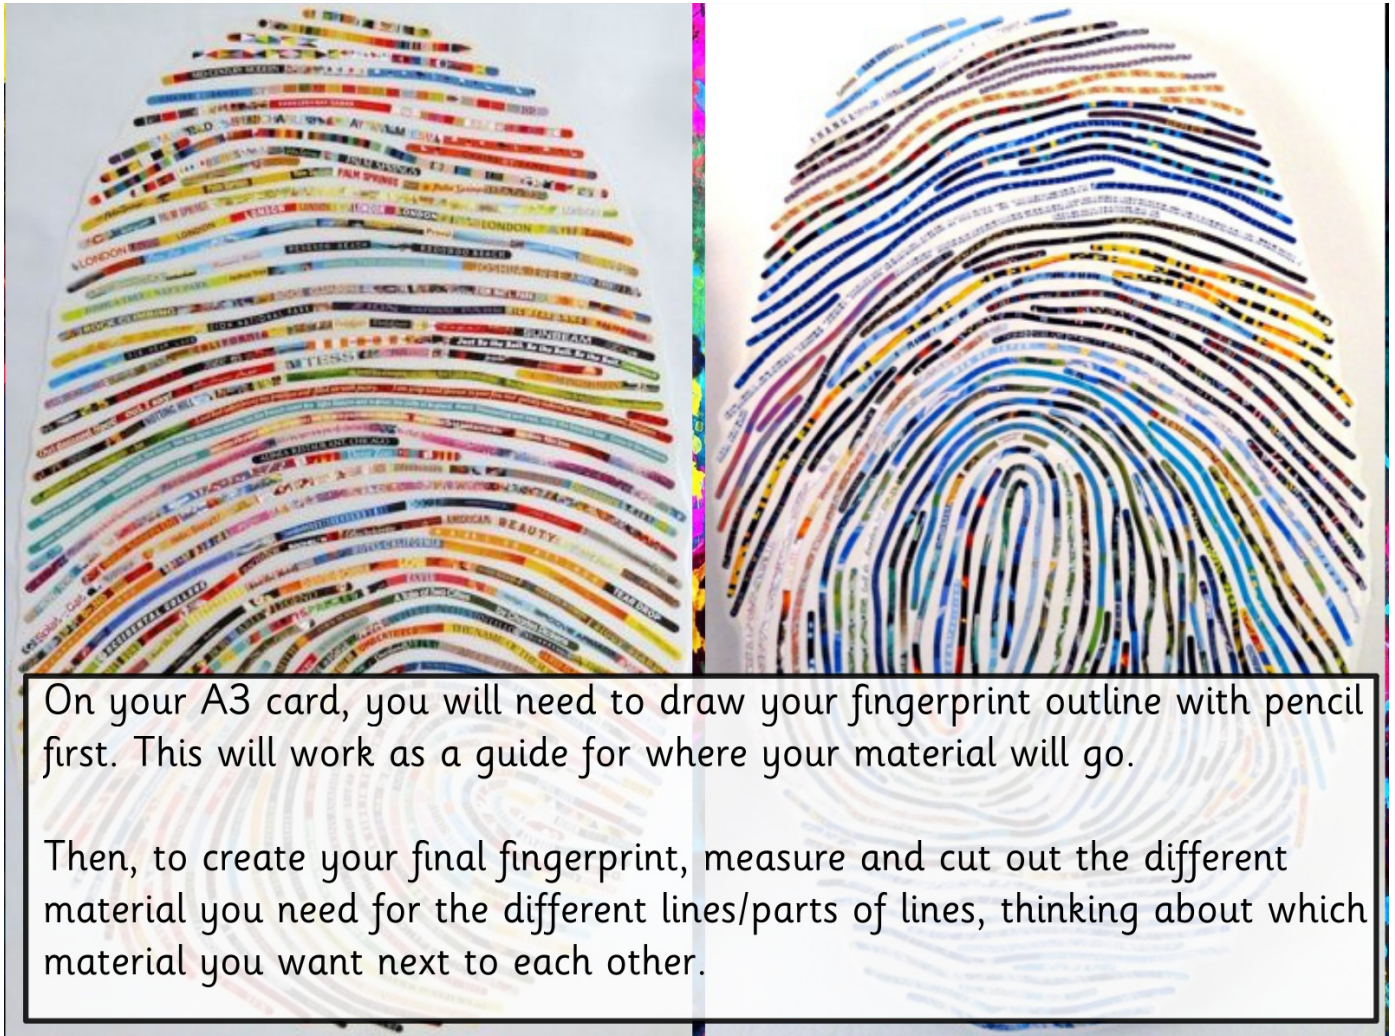

to create curved lines in your fingerprint.

First, gather the equipment you need,
in your chosen colour scheme.

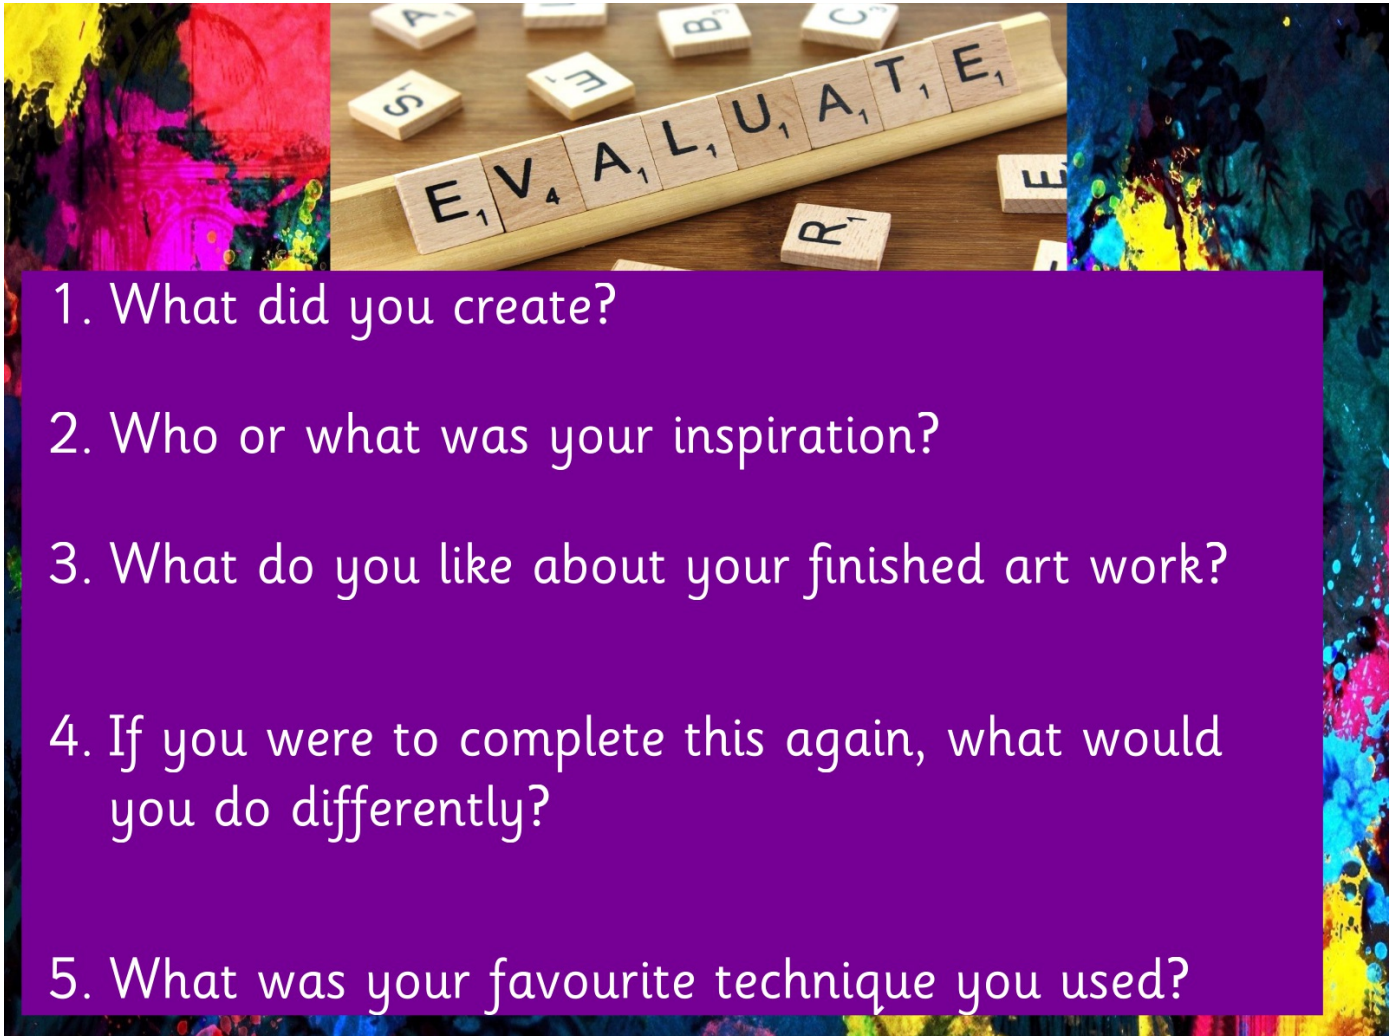

You may use:

- magazine clippings
- texts
- washi tape
- coloured paper
- tissue paper

On your A3 card, you will need to draw your fingerprint outline with pencil first. This will work as a guide for where your material will go.

Then, to create your final fingerprint, measure and cut out the different material you need for the different lines/parts of lines, thinking about which material you want next to each other.

1. What did you create?
2. Who or what was your inspiration?
3. What do you like about your finished art work?
4. If you were to complete this again, what would you do differently?
5. What was your favourite technique you used?
