

Plastic identification experiment.

Different types of plastic are used to make many everyday objects but do you know which plastic is which? Learn how to help the environment as you carry out simple tests and use a chart to identify different plastics for recycling.

	Plastic A	Plastic B	Plastic C	Plastic D
Does it float?				
Does it snap?				
Does it show stress whitening?				
What plastic do you think it is?				

polystyrene	polythene	Polyvinyl chloride	polyester
-------------	-----------	--------------------	-----------
