Yesterday you created a poem about happiness.

**Today we are going to edit our work together and re-write our poems in our best handwriting!**

**When we edit our work we are looking for ways that we can improve.**

**In class we always look through and edit our work in purple pen time.**

**It could be capital letters.**

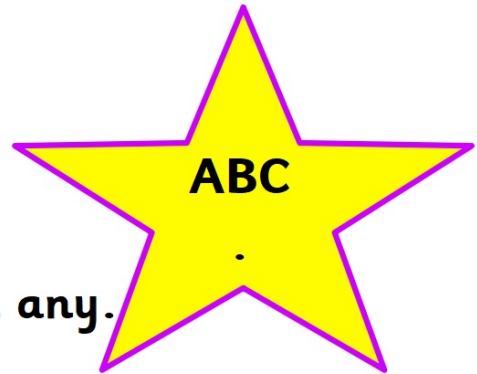

**The adjectives that you used in your expanded noun phrases.**

**Spelling corrections.**

**The way in which you presented your poem.**

**The joins in your handwriting.**

**In your work yesterday I was focusing on these 3 targets:**

**Using Capital letters to start your sentences and for names if you used any.**

**Getting those spellings correct. Especially the word happiness which was one of our RWI spelling lesson words a few weeks ago.**

**Expanded noun phrases to add description to the nouns in your poem.**

Here are two examples of poems. I am going to work through each one and improve them. Could you help me?
