

Reading Scales

Weighing scales can be read like a clock, the dial indicator moves as the weight increases. Each big line is 100g, each small line is 10g, the arrow shows 260g.

Draw arrows on the scale to show these weights:

- a. 520g
- b. 400g
- c. 960g
- d. 1000g
- e. 180g
