

# Greater Than or Less Than

## Parents

In year 2, children are taught the 'greater than' ( $>$ ) and 'less than' ( $<$ ) symbols alongside the 'equals' symbol ( $=$ ) and begin to use these symbols in number sentences. Children begin by using single numbers on each side and then may move on to using an addition or subtraction fact on one or both sides. For example,  $6 + 4 < 20$  or  $12 > 2 + 5$ . They may also look at putting an addition or subtraction fact on both sides of the 'equals' symbol (e.g.  $6 + 4 = 7 + 3$ ).

# Greater Than or Less Than

Put the correct sign (<, > or =) between these numbers.
